Lifting Columns

Slideway lifter

Actuator

Accessories

Where the system is to be used?

Thrust force: _____ N force is pushing pulling
Installation dimension: _____ mm stroke: _____ mm
Lifting speed: _____ mm/s
Lifetime: _____ double strokes
Duty cycle: _____ % S3 (1min/9min) customize: _____
Voltage: _____ Volt DC AC

Output motor cable:	top	bottom
Pulse encoder / Hall sensors:	yes	no
Position Indicator hand switch:	yes	no
Handswitch with Memory:	yes	no

Parallel Circuit: Several Lifting Columns/Actuator are synchronized with each other? **yes** **no**

If so how many: _____ **Pieces**

Surroundings: dry dusty moist Protection IP

End position:

Built-in limited switches desired? **yes** **no**

Should the stroke limit by external limit switches **yes** **no**

Is moved the system on block **yes** **no**

If so, in which position: **retracted** **extended**

Demand: _____ piece/year **Runtime:** _____ years

Do you already use similiar systems? **yes** **no**
